

SENTINEL LANDSCAPES

Sentinel Landscapes are working or natural lands important to the Nation's defense mission — places where preserving the working and rural character of key landscapes **strengthens** the economies of farms, ranches, and forests; conserves habitat and natural resources; and **protects** vital test and training missions conducted on those military installations that anchor such landscapes.

What makes Sentinel Landscapes valuable?

DID YOU KNOW?

25
MILLION

Approximate number of acres of military land, air, and water resources owned, operated, or managed by DoD

\$38
MILLION

Funding committed to Sentinel Landscapes designations by the federal partnership agencies along with state, private, and non-profit partners through 2015

1
MILLION

Number of U.S. farmland acres developed each year

MORE THAN
400

Number of federally protected plants and animals that live on DoD managed lands

50%

Percentage of all endangered and threatened species in the U.S. that are found on private lands
