What is a Sentinel Landscape?
Sentinel Landscapes are working or natural lands important to the Nation’s defense that have been officially designated by the U.S. Departments of Agriculture, Defense, and the Interior. This unique partnership brings together federal, state, local, and private stakeholders with overlapping interests in and around military installations and ranges.

The Georgia Sentinel Landscape
Established in 2017
Over 20 state, local, non-governmental and federal partners
9 military installations: Fort Stewart, Hunter Army Airfield, Moody AFB, Robins AFB, MCLB-Albany, Fort Benning, Fort Gordon, Moody AFB and NSB King’s Bay

Mission Statement
The Georgia Sentinel Landscape facilitates voluntary, non-regulatory, strategic, science-based, economically-grounded, common-sense collaborations that enable partners to implement compatible land uses in areas deemed as priorities for the military testing and training mission as well as critical to state and federal conservation efforts.
